New HR Systems

The Partners area, with some fantastic help from our team in the Change team successfully implemented a new recruitment tool last year.

This is now fully embedded, and we are now embarking in implementing our very own HR system. This aligns with our goal of standing on our own two feet and using all of our own internal systems and processes.

Office Access Details:

Access to your unit is 24-hours

Access with a key fob

If you have a key fob, this will allow you entry into the building.

Hold the fob against the reader, which is situated on each floor outside each entrance either the AM or PM Block and this will allow you into the building.

Access without a key fob

Visitors, contractors and other staff who do not have a key fob will have to press the company's buzzer to alert the entry phone in the office, which can then release the door, once it has been answered and allow the person entry into the building

We will be in touch shortly to confirm our change of address details on our email signatures and Project Partners collateral.
