

Sunday Success

What are we celebrating this week?

We're saying "Hello" to Brian!

Another newbie! Brian Philips has joined us as a Cloud Engineer, as part of the Tesco Bank team. Brian is an accomplished Cloud and DevOps engineer, offering a progressive outlook to cloud enablement, automation, optimisation and architecture. He's previously been engaged in both support and project delivery roles for a variety of public organisations and business sectors including banking, asset management, oil and gas, and construction.

Welcome to the the team! You'll be a terrific asset.

And "Goodbye" to Matt Miskell

[Matt](#) has been a big part of the Project Partners family, but we are now saying goodbye as he will be starting a new role at Open Asset.

Matt has been with our client Tesco for the last two years, working closely with the Data Engineer team. He has been closely aligned with the Data Modeller and Data Architect to help build out the Enterprise Data Model in Tesco's new AWS Data Lake. Matt has also helped Tesco staff become upskilled in using new cloud software to help them meet their goal of real-time streaming capability from ingestion of data through to reporting capability.

Matt, you have contributed so much to this company and helped us grow to where we are today. **Thank you for all you have done**, and please do keep in touch. We wish you all the best for your future endeavours and good luck at Open Asset!

Want to give kudos to somebody for their great work? Let us know and we might mention them in next weeks' email!
